Made in the USA
with Foreign & Domestic Parts

Maintain Your Perfect Temperature All Season Long

Extend your swimming pool enjoyment and increase the value of your investment.

Start Producing Heat Temperatures as low as 40°

AquaComfort Heat Pumps are designed to heat your pool effectively when others can't.

Available with Cooling Option

If your pool water is too warm, cool it down with our built-in cooling system, allowing you to achieve your desired temperature.

*Available on select models only

Heater Life Expectancy & Operating Cost

AquaComfort: 10-12 years / 70-85% less than gas

- Gas heaters life expectancy 5-6 years, 4-5 times more expensive than AquaComfort
- With its low cost of operation AquaComfort will save you more than \$10,000 in pool heating costs over the next 10 years

*Savings based on estimates only. Actual savings to be determined.

- For savings and sizing visit our website: www.AquaComfort.com

ALL AQUACOMFORT HEAT PUMPS COME WITH INDUSTRY BEST DESIGN, PERFORMANCE AND WARRANTY

LOW TEMPERATURE PERFORMANCE

With “Set it and Forget it” controls, our units start heating at lower temperatures than the competition. Achieving 30 to 40% more heat when you need it most by working when it’s down to 40°F outside.

HeatCOOL SYSTEM

The HeatCOOL System provides ultimate control of your pools temperature throughout your extended swim season. Combining heating and cooling technologies allows you to heat your pool to the desired temperature or switch to cool mode when the water is too hot. You get the best of both worlds in one unit.

**Available on select models only*

SERVICE AND SUPPORT

AquaComfort heaters are the most reliable in the industry, but when problems do occur, we’re ready to help find solutions and make things right. We offer technical support over the phone and technician support in your home. Help is just a phone call away.

AquaComfort heat pumps are the result of over 30 years of continued innovation. We have designed, tested and manufactured the most efficient, economical heat pumps you can buy. More than 100,000 pool owners across America get the most pleasure from their pools by heating with AquaComfort. No matter where you live, our solution delivers **more heat starting at lower temperatures**, with virtually no harmful emissions.

Engineered to capture more of the free heat from the surrounding air, we've innovated and perfected the science of pool heating. Our Turboguard titanium heat exchanger is virtually immune to damage from unbalanced water chemistry. Also, our fan assembly uses less energy and runs almost silently. It's a precision package that lasts longer while maintaining efficiency year after year after year.
